Subject: Trémas Wiring Systems B.V.

Dear Business relation,

We are happy to announce that the M&K Group GmbH and Trémas Wiring Systems B.V. have agreed that, as of the 1st of June 2009, the M&K Group takes over the activities of Trémas Wiring Systems B.V..

Starting from this day all orders and deliveries will be carried out and coordinated by M&K Systems B.V. During the coming days we will contact you about the procedures to be followed.

The M&K Group, known for its quality, know-how, dedicated staff and sound delivery performance, offers you a wide range of innovative products and solutions such as:

1. Maehler & Kaege connectors (12V/24V)
2. Trémas Towbar kits
3. M&K systems, standard and customized harnessing solutions
4. M&K Specialties, customized cables, (sub) assemblies

All these products and solutions are produced under the ISO TS 16949 and ISO 14001 quality labels in our highly automated and modern production facility in Brno, Czech Republic.

Further information you can find on our website www.muk-group.com .

With kind regards,

Camiel Ploegmakers
Managing Director
M&K systems B.V.
